

Level Up: Super Intelligence Unlocked

Explore. Expand. Evolve.

Use Zhineng Qigong to Develop Supernormal Abilities for
Vibrant Health, Self Awakening and **living your full potential!**

November 6 (Arrival)–14, 2026

Larnaca, Cyprus (EU)

Unlock the secrets of Zhineng Qigong to develop extraordinary abilities while enhancing your health, well-being, and potential. Join Master Yuantong Liu and our team for an immersive journey into awakening your true self and unlocking the full power of super intelligence.

The “Super Intelligence Awakening” course is designed to help you tap into supernormal abilities, which go beyond the ordinary sensory and cognitive functions we typically rely on. While our everyday senses limit the information we can perceive, supernormal abilities allow for deeper perception and interaction with the world. These abilities, whether innate or developed through practices like Zhineng Qigong, provide a greater understanding of human potential and the natural laws governing life.

Historically, individuals with such heightened abilities contributed to intellectual advancements, though their talents were often misunderstood. This course aims to demystify and activate these abilities using proven methods from Zhineng Qigong to awaken higher levels of consciousness and intelligence. You will learn how to awaken latent abilities, integrate them into daily life, and apply these skills for self-development, well-being, and a richer quality of life. Through theory, practice, and consistent application, this course provides a path to unlocking your extraordinary potential.

Key Objectives:

1. Develop Supernormal Abilities:

Understand that the supernormal is normal and awaken your true self through Zhineng Qigong techniques.

2. Achieve Enlightenment: Meet your true self and enter a state of heightened awareness and enlightenment.

3. Use Super Intelligence: Apply supernormal abilities to enhance personal development and improve life quality.

Theories and Practices covered such as:

- Organizing the Qi Field for Super Intelligence
- Full of Qi Method
- Right Angle Breathing
- Mind Concentration into Oneness
- YYT Meditation: Enter deep states of consciousness
- Strengthening the Lower Dantian and Inner Organs

*You are invited to engage in hands-on experiments to demonstrate supernormal abilities.
(E.g., Growing seeds and manipulating objects like spoons and needles with focused intent.)*

Who can Participate?

Requirements:

- No need for prior Qigong knowledge or practice
- Good mental and physical health as well as emotional stability
- Kindly note: People with contagious illnesses or mental health challenges (*such as depression*) should not participate.

If uncertain about your health condition, please contact us before enrolling.

Daily Flow:

- 7:00 – 8:00
Optional Morning Practice led by certified Zhineng Qigong Teachers and Hunyuan Qi Therapists
- 9:30 – 12:00 & 14:30 – 17:30
Theory and Practice sessions with Master Yuantong Liu
- 20:00 – 21:00 (selected evenings)
Meditative practice guided by Master Liu

About Supernormal Abilities and Super Intelligence:

Supernormal abilities transcend ordinary sensory and cognitive limitations, offering a higher level of intelligence. These abilities help individuals interact with the world in ways that support personal development and the understanding of natural laws. Through Zhineng Qigong, you will explore these abilities and learn to integrate them into your life for enhanced well-being.

This course will invite you to follow an 8-step approach to develop and use Supernormal Abilities effectively:

1. **Understanding and Theory:** Learn the foundational concepts of supernormal abilities, like the Hunyuan entirety theory in Zhineng Qigong.
2. **Awakening Abilities:** Actively call upon and practice these abilities to bring them out of their latent state.
3. **Deep-Level Consciousness:** Focus on sending instructions from your true self to activate and strengthen these abilities.
4. **Natural Emergence:** Allow the abilities to manifest naturally without forcing them.
5. **Conceptual Activity:** Engage in activities that integrate ordinary and paranormal abilities.
6. **Guidance and Practice:** Regular practice and, for children, guidance from adults are essential for developing and strengthening these abilities.
7. **Zhineng Qigong Practice:** Use Qigong techniques to enhance the reception and transmission of paranormal information.
8. **Active Use:** Consistently apply and practice supernormal abilities to further develop them.

Participation Fee: 780 Euro
